

Approved
Town of Mansfield Traffic Authority
Minutes of the Meeting – November 26, 2013

Present: Hart, Hultgren, Painter, Raiola, Meitzler

The meeting was called to order at approximately 10:35 AM.

The minutes of the October 29th and November 19th meetings were reviewed and no corrections made.

Storrs Center Traffic – Hultgren will check on the status of ordering the special sign for the ambulance parking place in front of the urgent care center on Royce Circle.

Speed Hump Requests – Letters to the requestors for speed humps on Davis Road and Bone Mill Road need to be sent explaining that speed humps for these roads don't meet the established criteria. Hultgren will see that these letters are done.

MMS new bus accessway to the south (bus) parking area – Engineering has not yet had a chance to look at this request.

Northwood Road signage issue – still waiting for word from Bev Simms regarding neighborhood opinions on the proposed sign/solution.

Mansfield Road at Pleasant Valley Road accident location – the measures approved at the October meeting have not yet been implemented.

Farrell and Bundy Lane intersection – the cat tracking of a center line through this intersection has not yet been done. It is doubtful that it will be able to be done before winter.

Crosswalk at 195/Moulton Road – Hultgren will check on this referral to DOT traffic.

Request for new signage at the one-lane bridge over the Willimantic River on Route 275 – Hart will notify the requester of the Authority's decision not to suggest this change to the DOT.

Codfish Falls driveway/accident – Meitzler will contact the requester to discuss this location and what can be done to improve sight distance.

Route 275 speeds in Eagleville – to be referred to the DOT for study and recommendation.

DOT school signing program – will be referred to DPW operations for a listing of the signs that should be replaced. Meitzler will review this list and send it to the DOT.

Bus shelter request at the Mansfield Community Center – discussed and noting that there is no money currently in the capital budget for bus shelters, no action was taken. Hart will note this for possible inclusion in the next capital budget.

Request for street light for the Route 275 crosswalk at the Community Center driveway exit. This request was approved and the DPW will order the new light.

The meeting was concluded at approximately 11:15 AM.

Respectfully submitted,

Lon Hultgren
Director of Public Works
